

SAGAR DUBEY

Dubai, UAE | Helsinki, Finland | sagardubey@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Technical product leader with 15 years of experience building API-first platforms and scalable systems across space, fintech, adtech, and edtech. Led end-to-end development of a satellite tasking and billing platform supporting \$M+ in annual revenue. Known for turning complex technical challenges into elegant, cross platform, user-centered solutions. International experience across Europe, Americas, and Middle East. Seeking senior product roles in innovative technology companies.

PROFESSIONAL EXPERIENCE

Co-Founder (Exploring)

[RavenGraph](#) | Remote | Aug 2025 – Present

Co-founding a fintech startup that uses graph neural networks to generate trading signals for quant funds. Wearing all hats: product strategy, customer discovery, and technical direction. Struggling to find PMF.

Senior Product Manager

[ICEYE](#) | Helsinki, Finland | Jan 2021 – May 2025

- Spearheaded end-to-end design, deployment, and adoption of the ICEYE Platform (UI & full-featured API suite) for SAR satellite tasking, data delivery, and analytics—supporting \$40M in annual revenue.
- Led Online Services team (2 PMs, 2 Designers, 1 Data Analyst) building interfaces for the world's largest commercial SAR constellation, partnering with 30-person engineering team.
- Drove infrastructure automation and shift from manual to programmatic tasking workflows, improving operational efficiency and developer experience.
- Partnered with legal, compliance, and sales on security requirements for sensitive government and defense customers. Advocated for ISO/SOC2-aligned workflows.

Co-Founder/Head of Product

[Zenith Calendar](#) | Helsinki, Finland | Nov 2021 – July 2022

Designed and built a cross platform scheduling software using React Native competing with Calendly, [Cal.com](#) etc

Product Manager

[Smartly.io](#) | Helsinki, Finland | Jan 2019 – May 2020

- Led Dynamic Ads & Feeds team responsible for 30% of company revenue, scaling a multi-platform system processing billions of dynamic assets daily.
- Worked directly with Uber, AirBnB, Spotify and Facebook product team to create value for customers and inform product roadmap.
- Partnered with Infrastructure and Product Ops to improve backend performance, internal tooling UX, and developer workflows.

Co-Founder/Head of Product

[Aika](#) | Helsinki, Finland | Aug 2019 – July 2021

Designed and built a cross platform podcast app from the ground up purely on React Native for iOS, Android and Web.

Senior Product Manager

[Yousician](#) | Helsinki, Finland | Jul 2017 – Sep 2018

- Led cross-functional cross-platform group developing social and video-based learning features before short-form video became industry standard.
- Drove product experimentation, A/B testing, and backend infrastructure for scalable user content processing and moderation. Cross platform work across Unity, iOS, Web.

Product Manager

[Yieldmo](#) | New York, NY | Mar 2016 – May 2017

- Owned front-end platform and integrations with major publishers across web and mobile.
- Created and scaled internal support tooling and documentation processes bridging engineering, sales, and customer success.

Global Projects Executive

[UPL Inc.](#) | India, Argentina, Brazil, Colombia | Jun 2011 – Nov 2013

- Led multi-country ERP integrations and supply chain optimization initiatives with McKinsey & Co.
- Designed and implemented CRM and SAP modules, translating complex business needs into technical configurations.

EDUCATION

MS, Information Management – Syracuse University, NY, USA (2014) – Academic Scholarship

BE, Electronics & Telecommunications Engineering – Mumbai University, India (2010)
